I'm a Frontend Web Developer specialize in building mobile responsive front-end UI applications that connect with API's and other backend technologies. I'm passionate about learning new technologies and understand there is more than one way to accomplish a task. Though I am most proficient in building front-end applications using HTML, CSS, Javascript, and React, NextJS, I am a quick learner and can pick up new tech stacks as needed. Currently, I'm seeking an entry-level position with Company to use my skills in coding.
